

DEVELOP NONSTOP

MONTHLY NEW PRODUCT

[More News](#)

MJ Gasket always delivers high-quality engine gaskets, seals, and related parts.

Last time, we introduced the gasket for the GM LB7/LLY 6.6L engine, and this time we will continue to introduce the EGR Valve Gasket for the GM LML 6.6L, which is designed with multiple layers of stainless steel for high strength, wear resistance and corrosion resistance. Its multi-layer structure ensures a sealing effect, excellent high temperature resistance, and long-term stable sealing, extending the service life of the EGR system.

About MJ

MJ Gasket has always been committed to development and exploration, as reflected in our tagline "DEVELOP NONSTOP". Since our inception in the early 1980s, we initially focused on supplying heavy-duty engine gaskets. We have diversified our product range significantly. Today, we offer gaskets for various industries and devices, and our list of offerings continues to expand. We remain open-minded and adaptable, constantly embracing change in the pursuit of making your gasket needs a reality. Our unwavering dedication to innovation allows us to meet the ever-changing demands of our customers. As we move forward, we eagerly anticipate further advancements, envisioning a future where our gaskets come to life in even more remarkable ways.

Why MJ

Accepts Small Orders and Ships Quickly

We accept low MOQ and ship with international express shipping companies such as UPS, TNT, DHL, FedEx and FedEx Heavyweight shipping service.

Develops Gaskets in Many Fields

We have developed more fields such as pickup truck engine gaskets, crankcase breather gaskets, PHE gaskets, etc. Visit our [Types of Gaskets](#) page to discover more.

Invests High Precision Machines for Quality

We are an ISO:9001 qualified gasket supplier and adopt high precision machines to ensure the product quality.

Elevates Your Product Image

Besides putting your logo on the gasket, we offer customized shrink/zipper bag packaging with your own company design.
